Phoenix Transport Group – Supply of Transportation Services

Phoenix Transport Group were selected by Recall Information Management to provide bulk transportation services as part of a consolidation project.

This project involved moving approx 2,000 semi trailer loads of items, from multiple sites in Sydney, with requirements to provide anywhere from 3 to 14 trailers per day. Phoenix were also asked to provide staff & lifting equipment at each end of the process.

As Recall Information Managements project manager for this consolidation project, Phoenix Transport Group proved themselves to be invaluable in meeting our ever changing needs, provided valuable advice when needed and were a key contributor to the success of the project.

We were pleased to have Phoenix Transport Group as one of our partners in this project and I have no hesitation in recommending them as a dependable & trustworthy supplier.

Yours Sincerely,
